DETAILED ACTION

1. The "Proposed Amendment" received October 18, 2005 is accepted by the examiner. Claim 80 has been cancelled and claim 81 has been amended.

Allowable Subject Matter

2. Claims 1, 24-79 and 81 are allowed. The following is an examiner's statement of reasons for allowance:

Claims 1 and 24-79 were allowed in a previous Office Action for the following reasons:

Regarding independent claim 1, the prior art fails to disclose or make obvious a lithography system comprising:

means for generating a plurality of light beamlets that are used to illuminate an electron source comprising a plurality of converter elements to generate corresponding electron beamlets and

control means for matching the mutual positions of the lightbeamlets with respect to the mutual positions of the electron beamlets.

Claims 24-79 are allowed by virtue of their dependency on claim 1.

Regarding claim 81, the prior art fails to disclose or make obvious a method for processing a substrate comprising:

generating a plurality of light beamlets;
illuminating an electron source by said light beamlets;
said electron source comprising a plurality of converter elements at an element distance from each other for converting a light beamlet impinging on it towards and focused on an object pane and matching the mutual positions of the light beamlets with respect to the mutual positions of the electron beamlets.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance"
